LIST OF TABLES

TABLE 1.1 Sample of available facilities for m-g research 40
TABLE 1.2 Sample of available m-g research facilities 41
TABLE 2.1 Research experiments of Expedition 6 53
TABLE 2.2 Special resources of the ISS that facilitate microgravity research . . . 58
TABLE 3.1 Summary of MIT SSL microgravity experiments 64
TABLE 3.2 Interaction between the SSL Design Philosophy elements 69
TABLE 3.3 Grouping of the SSL Design Philosophy features 71
TABLE 3.4 Past Experiments and the philosophy features 95
TABLE 4.1 SPHERES quantitative operational requirements 102
TABLE 4.2 SPHERES satellite properties 103
TABLE 4.3 SPHERES sub-systems 104
TABLE 4.5 SPHERES sub-systems and the design philosophy 116
TABLE 4.4 Design for formation flight (FF) vs. design philosophy (Lab) 116
TABLE 4.6 Satellite dynamics under actuation 138
TABLE 4.7 Gyroscope specifications (BEI Gyrochip II) 139
TABLE 4.8 Accelerometer specifications (Honneywell Q-Flex QA-750) 140
TABLE 4.9 SCS guest scientist interface modules 171
TABLE 4.10 SPHERES implementation of a spacecraft bus 183
TABLE 4.11 SPHERES bootloading process 194
TABLE 4.12 Summary 196
TABLE 5.1 Design Principles, the Laboratory Design Philosophy, and the ISS . . 219
TABLE 5.2 Experiments in Expedition 6 221
TABLE 5.3 Summary of ISS special resources 239
TABLE 5.4 Modularity criteria truth table 246
TABLE 6.1 Summary of SPHERES Experimental Results 266
TABLE 6.2 Areas of study supported by SPHERES 269
TABLE 6.3 Research iterations aboard the KC-135 276
TABLE 6.5 Summary of operational environments and iterative research 279

TABLE 6.4 MSFC flat floor iterations 279
TABLE 6.6 SPHERES value from ISS resource utilization 283
TABLE 6.7 Modularity of SPHERES 291
TABLE 7.1 Research facilities studied in the thesis 313
TABLE 7.2 Benefits of the ISS for microgravity research 316
TABLE B.1 Sample of available facilities for m-g research 355
TABLE C.1 Major sub-systems of space and ocean research vehicles 387
TABLE D.1 Originally planned multi-user facilities for the ISS 404
TABLE D.2 ISS Infrastructure Upgrades 408
TABLE F.1 Battery packs signals description 426
TABLE F.2 Power Switch signals description 426
TABLE F.3 Circuit breaker signals description 427
TABLE F.5 Power regulation board signals description 428
TABLE F.4 Control panel signals description 428
TABLE F.6 Propulsion board signals description 440
TABLE F.7 Solenoid board signals description 440
TABLE F.8 Features of the SMT375 board 448
TABLE F.9 Metrology motherboard signals description 450
TABLE F.10 DR200x specifications 473
TABLE F.11 DR200x signals descriptions 473
TABLE F.12 Communications motherboard signals description 474
TABLE F.13 Expansion port signals description 483
TABLE F.14 Expansion port beacon signals description 500
TABLE F.15 Expansion port tether signals description 504
TABLE G.1 DR200x configurations for boot load process 510
TABLE G.2 Boot loader command/reply packet structure. 513
TABLE G.3 Boot loader first packet structure 513
TABLE G.4 Boot loader general packet structure. 514
TABLE G.5 Boot loader FLASH variables default values 520
TABLE H.1 DR2000 packet structure 562
TABLE H.2 DR2000 configuration commands 564

TABLE H.3 Valid satellite IDs for the to and from fields 564
TABLE H.4 SPHERES header structure 566
TABLE H.5 STL standard frame specification (200ms frame) 570
TABLE H.6 STS standard frame specification (200ms frame) 571
TABLE H.7 General purpose command structure details 575
TABLE H.8 Initialization packet structure details 578
TABLE H.9 Corrections and seat track locations 580
TABLE H.10 Unit vector determination 581
TABLE H.11 Beacon location packet structure 582
TABLE H.12 Packet parsing matching sequence 583
TABLE H.13 State of Health packet structure details 583
TABLE H.14 Telemetry packet structure details 586
TABLE H.15 Telemetry data conversion factors 587
TABLE I.1 Research conducted at the MIT SSL 589
TABLE I.2 KC-135 flight weeks and satellites operated 591
TABLE I.3 February 2000 flight results 592
TABLE I.4 March 2000 flight results 593
TABLE I.5 October 2001 flight results 595
TABLE I.6 July/August 2002 flight results 596
TABLE I.7 February 2003 flight results 597
TABLE I.8 November 2003 flight results 598
TABLE I.9 MSFC flat floor experiments 599
