## A Role-Playing Game for the SoloStat System

**Character Name:** ERNIE ELVENTOES

**Character Background:** Ernie Elventoes was born in Anhelm, a series of islands floating in the sky. A shard of power was embedded in his soul at his birth, but this powerful gift lay dormant until the Chrysalis he experienced at age 10. After the unification of Avalon, Ernie became a subject of Queen Elaine when he joined the ranks of the recently dead and began haunting the living. Ernie currently serves on Her Majesty's Secret Service on missions into the pit of the collective unconscious of mankind.

**Character Name:** RALPH OF BERRY HOLLOW

**Character Background:** Ralph of Berry Hollow, an anthropomorphic otter, gained his skills by moving up through the military without dying. Living in the hellish Wasteland has left him with severe psychological problems. He believes that the rules of reality are constantly being modified by those around him, that his life is nothing but a movie, and that he is regularly hit on the head with anvils without experiencing any lasting physical effects. He does not know whether these experiences are caused by, or are the cause of, his spiral into insanity (or, perhaps, are both).

**Character Name:** ZOE ZYZZLDUST

**Character Background:** Zoe Zyzldust once worked for a paranormal investigations franchise, using her nova superpowers to stamp out the secretive cabals of sexy (yet angsty) undead. But when the Apocalypse happened (in some vague manner that the GM has not yet explained, but has nevertheless made hardscrabble survival a prime concern), she turned her attentions to the Horrors that periodically intrude from another dimension. She is currently the bassist for the band Groovetron Love System, which must tour constantly, lest The Man keep them down.

**Character Name:** LI'L SCOTCHY

**Character Background:** There was a time when, despite being a small doglike creature only barely passing for humanoid, Li'l Scotchy dreamed of becoming a superhero. But those dreams were crushed when he was labeled a heretic by the Universal Church because his abilities were derived from murdering beloved pets. As a result, he's on the run from dogs and farmers, just like the other rabbits that can't count past four.
