Student 35815 - Amine is very dedicated, well organized and very enthusiastic when delivering the recitations. He has a very pleasant approach in clearly explaining complex topics and nuances but also in giving his right intuitions.

Student 35821 - Amine is very helpful in office hours and explains concepts clearly. I especially appreciate the worked examples in recitation, especially the extra recorded network simplex video.

Student 35833 - Amine is the best thing about this class. He is the only reason I could get to this point, he cares about us, is incredibly smart, gives amazing tutorial videos. One feedback I have is that recitations should have more difficult problems; we didn't learn enough to be able to execute on the pssets or exam.

Student 35869 - Best optimisation TA

Student 35917 - - enjoys storytelling, histories/biographical info around the mathematicians of the theories/algorithms we studied was a fun added touch - can feel your genuine love for the subject :) - goes above and beyond to give us a good experience

Student 36050 - You clearly went above and beyond teaching us this semester! If you so choose, I think you will be a great professor one day!

Student 36074 - Amine is one of the best TAs I have ever met. He went out of the way to help students clear their concepts. I got so many concepts cleared from him. He is also very friendly and approachable which never lets the students feel uncomfortable even while asking stupid doubts.

Student 43495 - Really nice and also very helpful! When I fulfill my TA requirement, my aim will to be as effective as you.

Student 45007 - Amine salvaged the last half this course. He was better than the professor. More detailed procedure examples like Amine provided (and recorded on zoom THANK GOD) have helped me understand at least more material in this second half than the first.

Student 45410 - Very clear teaching. Amine really stimulated my interest in the subject.

His supplemental recordings are also extremely helpful. I cannot say enough good things about Amine.
