

I couldn't figure out the order of the gifts exactly - maybe you'll have a bit more luck. I did manage to learn a few things:

- The gifts for the gods whose names have bird glyphs should be placed adjacent to each other.
- The gifts for all of the gods whose names have man-with-beard glyphs are adjacent to each other.
- The gifts for the gods whose names have three glyphs are adjacent to each other.
- The gift for the god whose name has a square glyph does not go on the left-most platform.

Good luck!
