Everyday Life: Choosing with Health in Mind

Choice: Choosing with Health in Mind

By Jeffrey E. Harris

A Higher Cigarette Tax Would Yield $22 Billion

One of the most successful smoke-deterrent measures would be an increase in the per-pack tax on cigarettes. This would reduce smoking by 5 percent, according to a report by the Congressional Budget Office. A $2 per-pack increase in the federal tax would yield $22 billion over five years, the budget office estimates.
