

Erratum:

Due to construction by MIT, some areas of campus are currently inaccessible, which affects the intended route.

Instead of starting at Section A, please begin the Idea Generation process on the second floor of building 8, just north of the staircase there (near a poster for the Mechanics of Cell Deformation). Instead of section A, instead begin with section M. No other steps are affected.

If you have previously completed the Idea Generation process, you do not need to take any action.

Thanks,
Cranium Command
